## Skills

- LanguagesPython, Javascript, HTML/CSS
- FrontendReact JS, Next JS, React Native, TailwindCSS, Shadcn, MUI, Responsive Design, Animations
- BackendNode JS, Firebase, Supabase, API, MySQL
- ToolsGit/Github, VSCode, Pycharm, MS Office, Postman
- Soft SkillsTime Management, Leadership, Teamwork, Problem-solving, Documentation, Engaging Presentation

## Experience

- CodelanceRemote

Full Stack Developer InternSep 2023 - Sep 2024

- Designed front-end interfaces and implemented back-end architectures using **Next.js, TypeScript, Tailwind CSS and Firebase.**
  - Built scalable code and optimized existing solutions for improved performance.
- Doge CapitalRemote

Frontend Developer InternJan 2023 - Sep 2023

- Developed responsive web apps using **Next.js, Tailwind CSS, JavaScript and Node.js.**
  - Designed intuitive, blockchain-integrated interfaces for the **NFT ecosystem.**
- MetastartRemote

Frontend Developer InternSep 2022 - Oct 2022

- Developed responsive web apps using **Next.js, Tailwind CSS, JavaScript and Node.js.**
  - Created user-friendly interfaces tailored for decentralized governance in **DAO ecosystems.**

## Education

- SRM Institute of Science and Technology8.27/10 CGPA

B.Tech in Computer Science and Engineering with Specialisation in AIML

Chennai, IndiaSep 2021 - Present
- Chennai Public School88.2%

12th - Central Board of Secondary Education

Chennai, IndiaJun 2020 - May 2021
- Chennai Public School88%

10th - Central Board of Secondary Education

Chennai, IndiaJun 2018 - Apr 2019

## Projects

- Strmly – Decentralized AI-Powered Live StreamingFeb 2025 - Mar 2025

EthIndia'24 Hackathon

- Built a decentralized live streaming platform integrating AI chatbot and blockchain-based donations to enhance real-time viewer interaction.
  - Implemented NSFW detection for automated content moderation, ensuring safer and compliant streaming environments.
  - Technical Skills:** Next.js, Tailwind CSS, Blockchain, Web3.js, Supabase.
- International Conference Website - ICACST'23 (Full Stack Web App)Nov 2023 - Dec 2023

SRM University

- Engineered a full-stack web app for ICACST'23 using Next.js, Tailwind CSS, and Firebase, enabling seamless paper submission, real-time comments, and payment integration.
  - Collaborated cross-functionally to design and implement a feature-rich, secure, and intuitive system tailored to the needs of ICACST'23 organizers and participants.
  - Technical Skills:** Next.js, Tailwind CSS, Shadcn, Firebase.

DeWorks

Oct 2023 - Oct 2023

Unfold'23 Hackathon

- A blockchain-based platform transforming freelancing by securing client payments through Ethereum smart contracts.
- Enabled instant payment transfers to freelancers upon job completion, ensuring transparency and trust.
- Integrated NFT rewards to validate and celebrate freelancer achievements.
- **Technical Skills:** ReactJS, NextJS, TailwindCSS, Shadcn, Solidity, Vercel, Web3js, Blockchain.

Whale - DAO Tool

Dec 2022 - Dec 2022

EthIndia'22 Hackathon

- Developed \$WTK token to enhance audience retention and incentivize tasks for DAOs.
- Enabled contributors to earn \$WTK, redeem rewards, and participate in loyalty programs.
- Promoted transparency, trust, and a thriving culture within decentralized organizations through innovative engagement strategies.
- **Technical Skills:** ReactJS, NextJS, TailwindCSS, Firebase, Solidity, Web3js, Blockchain.

Texus'25 Event Website (Full Stack)

Mar 2025 - Apr 2025

SRM University

- Led the full-stack development of the Texus'25 college event website using Next.js and TypeScript, enhancing the digital presence of the university's flagship festival.
- Built and deployed four major dashboards: Admin Panel, Organisers Dashboard, Musical Night Interface, and a dedicated Hackathon Landing Page hosted as a subdomain.
- Boosted user engagement and retention through immersive frontend animations and refined UI/UX.
- **Technical Skills:** Next.js, React.js, TypeScript, Supabase.

Achievements

Dec 2022	<b>Winner,</b> EthIndia'22	Bangalore, India
